From the CEO

Dear members,

I wish to alert you to an issue that has come to the Institute's attention in relation to professional indemnity insurance. The Institute has been informed that the profession is being aggressively targeted by insurance brokers looking to establish themselves as specialists in architects' professional indemnity insurance.

From the President

Industry update - Access Premises Standards

Earlier this year, we held a round table to discuss members' concerns about Premises Standards [Disability (Access to Premises-Building) Standards 2010]. The Commonwealth has committed to completing a review of the legislation by May 2016. In order to contribute to the review and determine whether it has had a detrimental effect on architects, we need your input. We'd like to hear from you about any problems you may have had with the legislation. The information will be treated confidentially but will go towards a review submission, outlining the architecture industry's concerns and any suggested options to deal with the issues. Email [Bron Hill](#) with your experiences.
