

New Architect / Graduate of Architecture Position Available

Position available: Full time or Part time:

We are looking for an architectural graduate or Architect with at least 1 years post graduate experience. Ideally the applicant will have experience mainly in residential projects, will be familiar with interior architecture and have strong REVIT skills.

You will have a good sense of 'ownership' of the projects you work on and, as a relatively small architect firm, we have lots of fun through the design & documentation process. We really enjoy our work.

Remuneration will be negotiated.

Work Environment:

Architects TW is a boutique firm of Architects with a sense of fun & individuality whilst enjoying working together as a team. We encourage creativity, communication and are keen to mentor and nurture architects of the present & future. We enjoy our work & encourage robust discussion of ideas.

Our practice:

Architects TW was established in 2006. We are based in a great 'café strip' near Malvern Station. We specialise in residential architecture, from a single home extension (usually over \$500k) to apartment buildings and some commercial work.

Studio groove:

We enjoy a nurturing but creative culture and have always encouraged professional development to registration and beyond.

We are a flexible workplace that encourages a work/life balance.
