

The Company

Justin Architecture is a thriving studio specialising in multi-unit residential and boutique commercial work.

Justin Architecture has quickly developed a reputation as a contemporary design focused practice, which melds aesthetic vision with environmental sustainability.

The practice is engaged in a variety of projects ranging from single and multi-unit residential to institutional and commercial work. Justin Architecture is dedicated to shaping personal spaces to suit people and purpose.

The Opportunity

Justin Architecture is a thriving studio specialising in multi-unit residential and boutique commercial work. A position has become available for an exceptional Project Architect (graduate or registered) with 3-6 years post graduate experience to work on a range of commercial multi-residential, high end residential projects and education projects.

A position has become available for a talented Project Architect to join the team.

This is a fantastic opportunity for a strong all-rounder to join a design studio that has high design quality standards as well as a reputation for looking after their employees through a good work life balance and enjoyable working environment. Strong client liaison and team experience required.

Salary offer commensurate with experience and skill base.

About You

The successful candidate will possess:

- Tertiary qualification in Architecture
- 3+ years minimum post graduate experience
- Developed project management skills
- Excellent technical knowledge of BCA, Australian Standards and construction practice in Victoria
- Industry knowledge, local regulations, and awareness of trends
- Proven experience/knowledge of ABIC simple and major works contracts
- Documentation experience essential, with preference given to those with specific documentation experience in small to medium scale multi-residential projects
- Excellent written, verbal and drawing skills
- Ability to work autonomously and within a team environment, and produce accurate and reliable documentation
- Ability to coordinate and liaise with clients, consultants and authorities
- AutoCAD and Sketchup experience essential, Revit experience an advantage
- Applicants must be an Australian citizen or have permanent resident status at the time of application, as we are unable to provide employment visa sponsorship
