#IWD2018

#PRESSFORPROGRESS

What a time to be celebrating **International Women's Day** with so much global attention on **equality and opportunity**.

In collaboration, the **Australian Institute of Architects**, **Australian Institute of Landscape Architects** and **Planning Institute of Australia** are getting together to promote a more inclusive and productive design industry. Inspiring our colleagues and friends to realise the benefits of gender equality, and motivating them to become advocates for change.

Join us for an afternoon of enlightenment with special guest **Hon. Cheryl Edwardes**, who will talk about her experiences in professional and political life, and offer advice on how to progress in work and business.

Everyone is welcome.

Hon. Cheryl Edwardes AM, GAICD

Cheryl is a former practising lawyer, Attorney-General and Minister for the Environment. She was also an Executive General Manager at Hancock Prospecting, and is now a Senior Adviser with the international firm FTI Consulting.
