## Queensland Chapter Job Notice Board

### SENIOR PROJECT ARCHITECT – CORRECTIONS

Due to our ongoing success within the corrections sector we have an opportunity for a **Senior Project Architect** to join our firm. This opportunity offers long term career progression within one of Brisbane's leading architectural practices. Phillips Smith Conwell Architects has a focus on innovative design solutions and, since our inception in 1907, we have consistently evolved to produce a legacy of prominent and enduring designs.

Critical to this role is strong technical ability with an understanding of large scale, complex projects. Demonstrated experience in managing teams, coordinating consultants and correctional (or similar) projects is essential.

To be considered for this role you will have:

- Qualifications in Architecture, registration highly regarded;
- High level knowledge of documentation standards and construction methods;
- Experience in large scale projects within the Correctional (or similar) sector;
- Excellent organisational and time management ability;
- Strong communication and people management skills;
- Demonstrated ability to deal with complex project related issues with strong problem solving ability;
- Knowledge of Revit an advantage

We provide a collaborative and dynamic team environment, strive to make our office a positive and considerate workplace and we look forward to expanding our team to meet our project demands.

To apply for this role, please submit your resume to Faye Holmes.
