- **Have a direct hand in shaping design outcomes for the City of Brisbane**
- **Apply strategies and initiatives to improve the quality of the built environment**
- **Grow and manage partnerships with the private and public sector to deliver better urban design**
- **Provide design advice and enable better design outcomes for the city**

Brisbane City Council is the largest local government in Australia. It is responsible to the people of Brisbane and the management of resources to create a vibrant, successful and liveable city for the future.

Design Brisbane is the new City's Design Office within the City Planning and Economic Development Branch created as the centre of excellence for design in council. Our team is responsible for the development, facilitation and implementation of the design agenda for Brisbane.

An exciting opportunity now exists for a Principal Architecture - Design Review Team Manager to lead our talented team of designers. In this role you will drive and enable better urban design, architecture and landscape outcomes. We are looking for a talented and experienced built environment professional with a background in Architecture.

This is a visionary role where you will work within a multidisciplinary environment enabling you the opportunity to demonstrate your experience with a team of creative and highly regarded professionals working in this discipline. You will be managing complex projects and will lead the team with research, urban design, architecture and landscape advice through development assessments and compliance, including leading precesses such as Desing Smart and Independent review panels.

Success in the role will be typified by:

- effectively leading, motivating and developing an architectural and design team, and growing future leaders
- accurately applying relevant legislation to decision making
- working with the City Planning and Economic Development leadership team to drive continuous improvement
- building strong working partnerships with a variety of stakeholders.

To achieve this success you will:

- be an inspirational leader
- have a pronounced sense of customer focus
- possess excellent knowledge of planning and environment legislation
- negotiate and influence to achieve the best outcomes for Brisbane
- be innovative and agile.

Working in Council means delivering excellent customer service to the people of Brisbane.

Benefits of working for Council include:

- flexible working hours, and flexible arrangements
- free gym and wellness centre
- award winning superannuation fund
- generous leave provisions
- competitive salary.
