

DAVID LINDNER PRIZE

This prize aims to inspire graduates and emerging architects to contribute to the growth, innovation and development of architectural design and theory through a funded body of research. Dedicated to encouraging new research on the public realm, the prize seeks submissions that explore a broad range of topics relevant to current architectural discourse in Australia and internationally. The prize will be awarded to an individual whose submission generates ideas for solving real challenges facing our cities, engages in important design issues involving the public realm, and contributes to the profession as well as the broader community.

The Prize was established in memory of David Lindner, a talented young Sydney architect who tragically disappeared in Iran in 1993. The Institute would like to thank the Lindner family for their generous support.

THE PRIZE

The winning proposal will be announced at the annual NSW Architecture Awards on July 2 2015 and awarded funding of \$5,000 towards carrying out the research. The proposal will be published in the NSW Bulletin and feature at a public exhibition to coincide with the Sydney Architecture Festival (SAF).

During the SAF the winner will also be invited to speak about the work in progress. The research outcome will be presented at an exhibition and published in the NSW Bulletin, as well as other print and digital media avenues the Institute can offer at the time, such as feature article on EmAGN & DARCH website.

ELIGIBILITY

Entrants must fulfill the following eligibility criteria:

- Be nominated by an Australian Institute of Architects member
- Nominees can either self-nominate or be nominated by a third party
- Must be an Australian citizen or permanent resident
- Must have graduated from a two-tier or five year Bachelor of Architecture or Masters course undertaken in Australia up to 15 years ago

JUDGING CRITERIA

Juries will judge entries based on the following criteria:

- Strength of the proposal's idea
- Understanding of issues concerning the public realm and urban renewal
