

## **Architect (High-End Residential)**

### **Job Description**

O'Connor and Houle Architecture is seeking an experienced architect to become involved in the design and delivery of high profile residential projects. The successful candidate will have a passion for architecture, proven design experience, strong leadership skills, high professional standards, strong attention to detail and strong communication and interpersonal skills to liaise with clients, consultants, contractors and the project team. Importantly, the successful candidate will have a strong design sensibility coupled with the technical skills required to produce detailed documentation packages. We offer a flexible work environment and an attractive remuneration package to suitably qualified candidates. The position offers the opportunity to be exposed to all facets of project delivery within a small detail-oriented architectural practice.

Our studio is located in Albert Park adjacent to St Vincent Gardens and the vibrant Bridport St shopping precinct.

### **Desired Skills and Experience**

- Proven knowledge and experience in the design and delivery of high-end residential design projects
- Autocad proficiency
- Strong design sensibility, as well as excellent technical/construction documentation competency
- Preference given to registered candidates in Victoria, with or without Contract Administration experience
- Excellent verbal and written communication skills
- Detail-oriented skills
- Awareness of BCA/NCC, Australian Standards and local Planning Schemes

### **About O'Connor and Houle Architecture**

O'Connor and Houle Architecture is a small architecture, interior design, landscape and urban design practice located in inner city Melbourne, regarded as one of Australia's leading design practices and featured consistently in major architectural publications in Australia and abroad.

At any scale, our projects seek to stimulate the senses and engage with all facets of human endeavour. We aim to tailor-make spaces that are experienced as well as seen, and environments that ultimately promote a sense of wellbeing and a sense of belonging. This results in rich, multi-layered environments that communicate simply, clearly and joyfully.

We believe that powerful architecture can brand an organisation, define the identity of a city, or simply, make home a special place to be.
