

Senior Architect - Richmond

Auhaus Architecture is a small Melbourne based architecture studio working predominantly on highly detailed single and boutique multi residential projects.

Our Cremorne studio is on the lookout for an outstanding senior architect with a minimum of 8 years post-graduate experience working specifically on high end single residential projects. The role requires a broad and thorough knowledge of construction detailing, town planning and local building codes. You will need to be able to work in a busy team environment through all stages of residential projects liaising with clients, consultants and authorities.

A strong design sensibility and close attention to detail is essential.
Contract administration and site experience will also be required for this role.
