

vincent.chrisp

who we are:

Vincent Chrisp are a medium sized Southbank based firm with a proven track record in Community projects such as Justice, Health and Education.

We have decades of experience designing beautiful, functional buildings for a variety of community-oriented projects. Since 1993, our creativity, expertise and experience has helped shape Victoria's urban landscapes

You'll see our designs in healthcare, justice, education, science and many other industries throughout the state. That's because at VCA we know how to engage with our clients and design around their particular needs. Each project is different. Each design unique.

We have a culture of respect and are a friendly, social practice where we enjoy doing what we do and working with the people alongside us. We have a number of exciting new projects coming up and are looking to expand our team.

positions available

We have the following positions available:

graduate of architecture

We are looking for an enthusiastic and motivated graduate of architecture to join our practice. REVIT experience a bonus but not a prerequisite as we will train you inhouse. This position offers a genuine opportunity to advance your career within an expanding practice.
