(Position)

Experienced Graduate of Architecture / Recently Registered Architect

About us

Decibel Architecture is an international award-winning practice with a culture that is deeply considered, clearly articulated and constructed around our values of Knowledge, Radicalism and Play. Decibel Architecture delivers exceptional outcomes, on purpose.

We work on a wide range of projects, from chandeliers to cities, across a variety of sectors including retail, residential, urban planning, cultural, industrial, recreational, tourism and sustainable design. The projects range from small filigree carbon fibre structures, to national forest eco-resorts, and multi-million-dollar cultural institutions across Australia and overseas.

We have a deep commitment to process and continuous improvement, allowing the team to learn and grow together and ensure we are all able to do our best work. We are committed to experimentation and exploration in 3d printing, automation, drone technology, VR, AR and new ways of seeing and making.

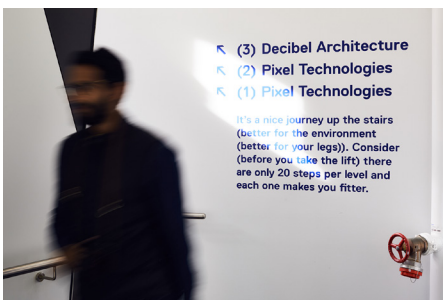

The role

The role is available for an experienced graduate of architecture or newly registered architect who can work on a project from concept design through to completion. The successful candidate will be heavily involved in design, working closely with the Director and on occasions leading a small team.

Requirements:

- Strong design sensibility
- Ability to analyse and critically assess problems
- Excellent interpersonal and written/verbal communication skills
- Ability to work with/ manage clients & consultants
- Self-directed & highly motivated
- Revit intermediate
- Rhino advanced
- Adobe Suite advanced
- Minimum 4 years' experience
- Recently registered architect favourable
- Unrestricted working visa

We are happy to discuss flexible working arrangements. Salary and reward are negotiable and will be commensurate with securing the right candidate.
