# 3D Laser Scanning

Presentation by HoloVision 3D

Wednesday, 13th of February 2019

## About the Event

Operating throughout Australia, **HoloVision 3D** offers comprehensive 3D Laser Scanning services for the efficient, detailed, and accurate collection of 3D data.

Using 3D Laser Scanning the full external detail of any object, of any size can be captured by creating a 3D Point Cloud.

Enabling non-contact measurement from a distance, 3D Laser Scanning is a risk managing and cost effective solution for capturing data in congested, detailed or hostile environments.

This presentation will discuss the magnitude of applications 3D Laser Scanning has across industries and how it may benefit your business.

### Discussion Topics

- Introduction to 3D Laser Scanning
- Applications & Deliverables
- Benefits of 3D Laser Scanning
- Industry Applications
- Case Study Examples

Date	Wednesday, 13th of February 2019
Venue	Engineers Australia Auditorium 9 Cavenagh Street Darwin, NT
<b>PROGRAM</b>	
<b>5:30pm</b>	Arrival & Registration
<b>6:00pm</b>	3D Laser Scanning Presentation by HoloVision 3D
<b>6:45pm</b>	Q&As
<b>7:00pm</b>	Ends
