

## Work Integrating Learning – Placement registration

### Introduction

Thank you for agreeing to participate in the Discipline of Architecture and Design's Work Integrated Learning (WIL) Program. The program is open to second and third year Bachelor of Architecture and Built Environment (B.ArchBEnv) students or any Masters of Architecture (M.Arch) student. It is an assessable component of each course.

Complete this form to register for a student placement in your business. In registering, note that:

- Placements are not guaranteed and they are not paid.
- University Insurance covers students in a WIL placement.
- Placements are for 14-15 working days. This can be in a block or spread across a semester.
- Placements will be offered considering your preferences and the preferences of the students requesting a placement.
- To accept a placement, you must complete a *Placement Agreement*.
- Information provided in this form will be used in discussions to coordinate a work placement.
- To offer more than one placement, register each placement opportunity separately.

See the Architecture & Design Work Integrated Learning briefing paper for more information.

### Placement provider details

Complete or tick (✓) the correct option

Company name:	
Placement type: (✓)	Architecture practice <input type="checkbox"/>   Building company <input type="checkbox"/>   Other <input type="checkbox"/>

Training required: (✓)	White card <input type="checkbox"/>

### Experience outcomes

Review the list below and mark the **five** experience outcomes most likely from a WIL placement with your business.

Build confidence		Business planning	
Develop a career plan		Develop leadership and teamwork skills	
Explore new learning possibilities		Identify employment opportunities	
Improve diversity		Improve technical knowledge	
Make professional contacts		Gain practical experience of architecture	
Gain practical experience on site		Satisfaction from helping others	
Develop business skills		Develop time management skills	

## Other considerations

Please list other considerations or requirements that may influence a WIL placement. If you have negotiated a placement with a student independently, please include their name here.

## Placement declaration

I have read the Architecture & Design Work Integrated Learning briefing paper and consent for the information in this form to be used in discussions to coordinate a work placement.
